

WORK CERTIFICATE

We hereby certify that Mr Zakaria Möri, born on 6th of December 1989, worked in our company since the 2nd of September 2019 to 30th of September 2022.

He was hired as a Laboratory Technician and on the 15th of May 2020, he has been promoted to the title of Researcher in Functional Nano-Material.

Mr Möri was responsible for the following tasks:

- hydrothermal growth of 1-dimensional semiconducting inorganic nanostructured materials
- regional selective electrodeposition of redox-reactive conducting/semiconducting polymer thin film
- synthesis of co-shell nanowires/nanoparticles based on organic-inorganic composites
- response time optimization of electrochromic devices
- finite element simulation (COMSOL) for DC analysis
- Python coding for data analysis
- cleanroom process (physical vapor deposition, heat bonding)
- prototypes assembly
- optical testing platform designing and constructing

Mr Möri is an enthusiastic person of our team with good communication and people skills.

With his knowledge in nano material, Mr Möri made important contributions to the research and development department mission.

Mr Möri was very effective in communicating complex situations with internal and external stakeholders, which he was mastering in English and French.

Mr Möri has decided to resign and, thus, part ways with us for his personal reasons.

We wish him all the best in the future.

Ecublens, 4th of October 2022
